## Personal Profile

I am an inquisitive computer science undergraduate at the University of Sussex, detail-oriented and systematic in coding, with a passion for algorithmic challenges and software development. Proficient in Python and Java, I have experience in web development and thrive in collaborative environments. My goal is to contribute to projects focused on software development, machine learning, and artificial intelligence, leveraging my versatile skills to drive innovation.

## Education

### BSc (Hons) Computer Science

University of Sussex  
2023 – Present

Key modules: Data Structures & Algorithms, Further Programming, Mathematical Concepts, Introductions to Computer Systems, Introduction to Multimedia

### International Baccalaureate Program (IB)

Athens College High School  
2021 – 2023

Greek “Apolytyrion” GPA: 18.4/20

Courses: Computer Science HL, Mathematics Analysis & Approaches HL, English HL, Economics SL, Psychology SL, Modern Greek SL
